

CHAPTER 20
PREPARATIONS OF VEGETABLES, FRUIT, NUTS OR OTHER PARTS OF PLANTS

Notes.

1. This Chapter does not cover:
 - (a) Vegetables, fruit or nuts, prepared or preserved by the processes specified in Chapter 7, 8 or 11;
 - (b) Food preparations containing more than 20% by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof (Chapter 16);
 - (c) Bakers wares and other products of heading 19.05; or
 - (d) Homogenised composite food preparations of heading 21.04.
2. Headings 20.07 and 20.08 do not apply to fruit jellies, fruit pastes, sugar-coated almonds or the like in the form of sugar confectionery (heading 17.04) or chocolate confectionery (heading 18.06).
3. Headings 20.01, 20.04 and 20.05 cover, as the case may be, only those products of Chapter 7 or of heading 11.05 or 11.06 (other than flour, meal and powder of the products of Chapter 8) which have been prepared or preserved by processes other than those referred to in Note 1(a).
4. Tomato juice the dry weight content of which is 7% or more is to be classified in heading 20.02.
4. For the purposes of heading 20.07, the expression “**obtained by cooking**” means obtained by heat treatment at atmospheric pressure or under reduced pressure to increase the viscosity of a product through reduction of water content or other means.
6. For the purposes of heading 20.09, the expression “**juices, unfermented and not containing added spirit**” means juices of an alcoholic strength by volume (see Note 2 to Chapter 22) not exceeding 0.5% vol.

Subheading Notes.

1. For the purposes of subheading 2005.10.00, the expression "**homogenised vegetables**" means preparations of vegetables, finely homogenised, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of vegetables. Subheading 2005.10.00 takes precedence over all other subheadings of heading 20.05.
2. For the purposes of subheading 2007.10.00, the expression "**homogenised preparations**" means preparations of fruit, finely homogenised, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of fruit. Subheading 2007.10.00 takes precedence over all other subheadings of heading 20.07.
3. For the purposes of subheadings 2009.12.00, 2009.21.00, 2009.31.00, 2009.41.00, 2009.61.00 and 2009.71.00, the expression "**Brix value**" means the direct reading of degrees Brix obtain from a Brix hydrometer or of refractive index expressed in terms of percentage sucrose content obtained from a refractometer, at a temperature of 20°C or corrected for 20°C if the reading is made at a different temperature.

Additional CARICOM Notes.

1. Reconstituted juices, i.e., products obtained by the addition of a quantity of water not exceeding that contained in similar non-concentrated juices of normal composition, are classified in this Chapter. However, fruit juices in which one of the constituents (e.g., water, citric acid or essential oil extracted from the fruit) has been added in such quantity that the balance of the different constituents as found in the natural juice is clearly upset, and the natural juice has lost its original character, are classified in Heading 21.06 or in Chapter 22.
2. Coconut milk, generally consisting of coconut flesh extract (57%) and water (43%), put up for retail sale, is classified in Heading 21.06.
3. For the purposes of Subheadings 2009.61 and 2009.69, grape must partially fermented (whether or not fermentation has been arrested) and unfermented grape must with alcohol added, both having an alcoholic strength by volume exceeding 0.5 % vol., are classified in Heading 22.04.
